

# THE IMPORTANCE OF ORIGINAL SPARE PARTS...

The guarantee to be able to have original spare parts is essential in industrial processing, where production machines have components subject to heavy wear;

This opportunity allows using higher quality products and eliminate problems related to compatibility with the used machines.

MEM has a large storage of finished pieces and a raw material storage that covers all spare parts of its own installed machines.

## ... AND OF ASSISTANCE.

We can provide our Customers with the requested spare part at any moment and the necessary assistance for on site assembly and/or repair.
